### **NOTICE OF FINAL DECISION for A HAZARDOUS WASTE FACILITY PERMIT**

**McCormick Selph, Incorporated  
3601 Union Road  
Hollister, California 95023  
EPA Id. No. CAD009220898**

**Decision Date: May 12, 2006**

#### TO WHOM IT MAY CONCERN:

In accordance with the California Health and Safety Code, Division 20, chapter 6.5 and the California Code of Regulations, title 22, section 66271.14, the Department of Toxic Substances Control (DTSC) has made a final decision to renew and approve the Hazardous Waste Facility Permit for the McCormick Selph, Incorporated (MSI) facility in Hollister, California. The final Permit allows for the continued operation of the open burn/open detonation (OB/OD) units to treat reactive hazardous waste and for treatment and storage of hazardous waste in tanks and containers.

DTSC held a public comment period for the draft Permit and draft Negative Declaration from February 28, 2006, to April 14, 2006. DTSC also held a public hearing in Hollister on April 6, 2006, to receive public comments on the draft project documents. DTSC did not receive any public comments on the draft Permit. DTSC received comments on the draft Negative Declaration and Initial Study from Ms. Jean Getchell, Monterey Bay Unified Air Pollution Control District (MBUAPCD). The comments concerned the attainment status of the North Central Coast Air Basin for the State PM10 standard and the name of the MBUAPCD contact person for permits. A Response to Comments document has been prepared.

Since no public comments were received on the draft Permit, the Permit is effective immediately and has an expiration date of May 11, 2016. Also, since DTSC did not make any changes from the draft Permit to the final Permit, the permit appeal process pursuant to California Code of Regulations, title 22, section 66271.18 is not applicable.
